

# Enbridge's economic impact on Nevada

At Enbridge, our goal is to be the first-choice energy delivery company in North America and beyond – and for 75 years, we've delivered the energy that fuels quality of life.

We move about 30% of the crude oil produced in North America, we transport nearly 20% of the natural gas consumed in the U.S., and we operate North America's largest natural gas utility by consumer count. We were an early investor in renewable energy, and we have a growing offshore wind portfolio.

These activities **deliver a variety of economic benefits to multiple**

**American states**—and these aspects of our operations also fuel people's quality of life, whether they're:

- **well-paying jobs** in towns and cities;
- **tax revenue** that can help build schools, hospitals and roads;
- **procurement spending** that stimulates local economies; or
- **grants and volunteer labor** for community-strengthening projects.

As the world's population grows, we'll need all forms of energy to meet rising global demand. As a diversified energy company, we are uniquely positioned to help accelerate the global transition to a cleaner

energy future, while at the same time delivering a secure and affordable supply of energy.

We recognize that the energy transition requires a practical approach. At Enbridge, we're committed to lowering emissions while meeting growing energy demand; to supporting our customers today while anticipating their needs tomorrow; and to meet that demand, developing new energy sources while keep energy costs in check.

We're proud to deliver economic benefits in the states where we do business.

# Energy assets, operations and projects

Enbridge's operations, projects, and/or asset ownership interests in Nevada include:

- The 52-MW **Silver State North Solar Project**, located in Clark County.

For more detailed information on Enbridge's infrastructure, projects and/or community investment activity in Nevada, please visit our online interactive map at [Enbridge.com/map](https://www.enbridge.com/map)

## LEGEND

bpd – barrels per day  
Bcf/d – billion cubic feet per day  
Bcf – billion cubic feet  
NGL – natural gas liquids  
MW – megawatt

# A leader in energy delivery

Enbridge is North America's premier energy infrastructure company, transporting about **30%** of the crude oil produced in North America and moving about **20%** of all natural gas consumed in the United States.

## Liquids pipelines

Enbridge operates the world's longest and most complex crude oil and liquids transportation system, with about **17,800 miles** of active pipe across North America. That includes about **9,300 miles** of active pipe in the U.S.

**3M+**

Barrels of crude and liquids delivered daily, on average

**65%**

of U.S.-bound Canadian crude production

**40%**

of total U.S. crude imports

## Natural gas transmission and midstream

Unrivaled in the industry due to their scale, scope and connectivity, Enbridge's natural gas transmission and midstream pipeline assets cover about **73,800 miles** (including assets owned and operated by DCP Midstream, a joint venture between Enbridge and Phillips 66) across 34 American states, six Canadian provinces and offshore in the Gulf of Mexico.

**24.6B**

cubic feet per day (Bcf/d) of natural gas transported

**273.8B**

cubic feet (Bcf) of net working storage through our natural gas transmission operations

**707K**

bpd of NGLs produced by DCP Midstream, a JV between Enbridge and Phillips 66

## Natural gas utilities

Enbridge Gas Inc. is North America's largest natural gas utility by throughput. Enbridge Gas and its affiliates serve about **5 million customers** in Ohio, Ontario and Quebec.

**6B**

cubic feet per day (Bcf/d) of gas distributed to residential, commercial and industrial customers

**136,300 miles**

of gas transportation/distribution mainlines and service lines

**350.8B**

cubic feet (Bcf) of net working storage through our natural gas distribution operations

## Renewable energy

Since 2002, we've committed more than **\$6.6 billion** in capital to renewable energy and power transmission projects currently in operation or under construction. Our green energy portfolio includes **23** wind farms, **15** solar energy operations, **5** waste heat recovery facilities, **1** geothermal project and **1** power transmission line, and we're expanding our presence in European offshore wind.

**5,304<sup>MW</sup><sub>GROSS</sub>**  
**2,371<sup>MW</sup><sub>NET</sub>**

of zero-emission energy generated\*

Generate enough green energy (based on net figures) to meet electricity needs of\*

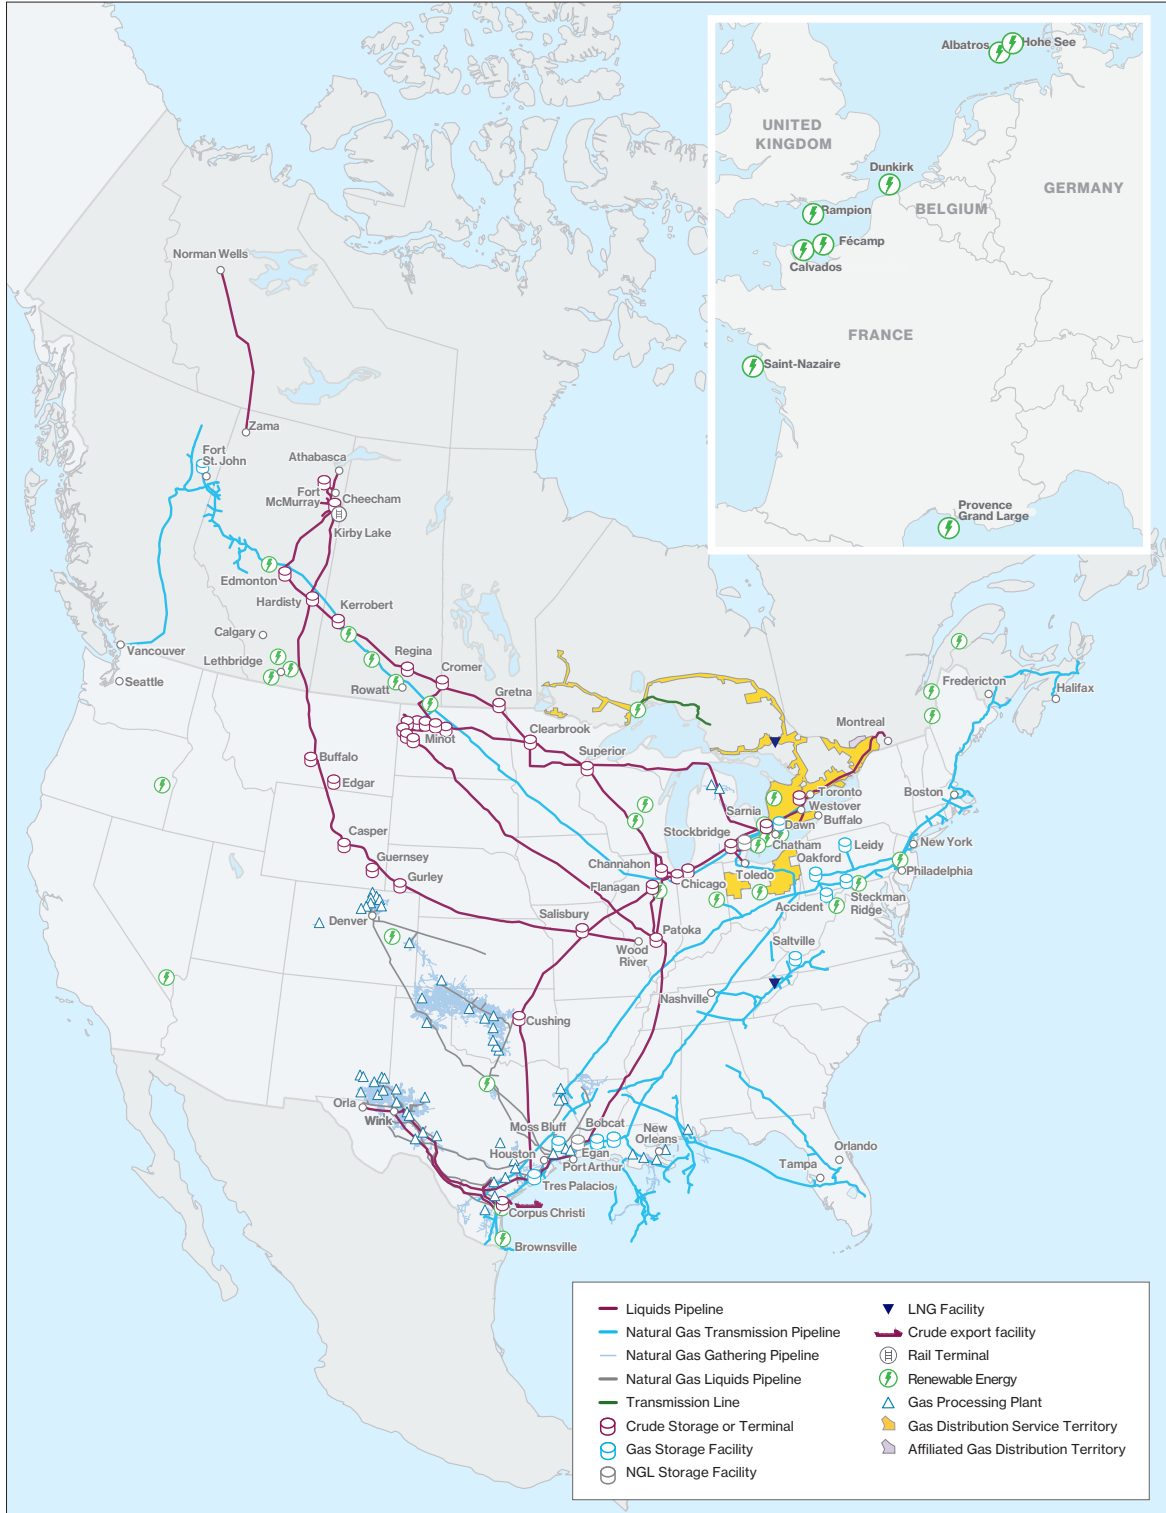

**1.14M homes**

\* projects currently in operation or under construction

# The big picture: Connecting supply with demand

Enbridge is a global energy infrastructure leader. Our diversified assets are balanced between natural gas and oil, connecting key supply basins and demand markets across North America.
